

CLARK WECKMANN

cweckmaniii@gmail.com

I'm a freelance web front-end developer/designer. I love anything to do with coding and am an eager learner! Watching something as simple as a bunch of letters, numbers, and symbols come together into something amazing is mind blowing!

What I have to say about myself...

I don't have much experience yet other than the projects I am constantly working on. As far as experience goes I would say I have more than most in my group I am always working on a project, day and night. I love learning new skills and helping out the best I can with people trying to learn. I am a fast learner and am currently working on learning several new languages and frameworks. I cannot wait to get my first **big gig**! I'm always job hunting. I don't even care about money right now. I just want to get my name out there! I am more than happy to talk to you if you have any questions.
